

## FREE VACCINE TRAVEL

**HcL is offering free vaccine travel for any person who has mobility challenges in Edinburgh, Midlothian, East Lothian and West Lothian, to support the community during the pandemic.**

Mobility challenges can be due to age, disability, health issues (short-term or long-term), additional support needs or geographic remoteness. All vehicles are wheelchair friendly.

You do not need to be already registered with HcL.

**Transport is subject to availability. We recommend calling as soon as you have your appointment.**

**Edinburgh, Midlothian & East Lothian – 0131 447 9949**

**West Lothian – 01506 633953**

The driver will collect you from your home, providing any assistance you need from your home and onto the vehicle. They will assist you to the vaccination centre and wait for you, before taking you home.

Please note you will need to register to use this service but it is quick and free.
